**COL. CERVANTES TELLS HISTORY OF LIFE IN COURT**

Once Wealthy Diplomat And War Hero Drives Jitney For Living.

El Paso, Tex., April 15.—Colonel Cervantes, chief of staff to General Felipe Angeles, minister of communications in the cabinet of Provisional President Lázaro Cárdenas, officer-instructor in the French flying corps, and wearer of the French cross of the legion of honor, told the history of his revolutionary experiences in Mexico today in Federal court as a witness in the trial at himself and eleven others charged with setting on foot a military expedition to Mexico. They were arrested last month near Socorro, Texas, on the Rio Grande.

Cervantes told the jury he was a graduate of Chapultepec military academy with honors, was sent by President Madero to study aeronautics in the French army, acted as an officer-instructor in the French corps for which service he was decorated, and returning to Mexico after President Madero was killed, acted as chief of staff and minister in the provisional president's cabinet under the Aguas Calientes convention of 1915, to which he was a delegate from the army of Sonora.

**Owned Valuable Estates.** During his testimony, Colonel Cervantes stated he owned a home valued at 30,000 pesos in Mexico City, an interest in an estate valued at 800,000 pesos in Mexico and other property, all of which he said, had been confiscated by General Gonzales. He added that he had been driving a jitney bus in El Paso for three years prior to his arrest.

He reviewed the history of the Carranza-Villa break and denied he had ever served with Villa after that time.

**WHY DOCTORS PRESCRIBE THE NEW CALOMEL**

Medicinal Virtues Retained and Improved—Unpleasant and Salivating Qualities Removed—New Variety Called "Calotabs."

Of all the medicines in the world, doctors prescribe calomel most often and depend upon it most universally. There must be a good and sufficient reason—what is it?

If you will study the doctors' books you will find that the medical authorities prescribe calomel for almost every disease. The reason is that calomel and is rapidly taking its place, system-purifier. It makes the liver active, drives out the poisons from the stomach, bowels and kidneys and thereby purifies the blood. Calomel puts the entire system in the most favorable condition for Nature to exercise her recuperative power. That is why he prescribes calomel so often.

The new kind of calomel, called "Calotabs" is refined and purified from all of the nauseating and dangerous qualities of the old style calomel and is rapidly taking its place, for it is more effective than the old style calomel as a liver-cleaner and system-purifier. One Calotab at bedtime, with a swallow of water—that's all. No salts, no nausea, nor the slightest unpleasantness. Next morning you awake feeling fine—with a hearty appetite for breakfast. Eat what you please. No restrictions of habit or diet.

Calotabs are sold only in original, sealed packages, price thirty-five cents. Recommended and guaranteed by druggists everywhere. Your money back if you are not delighted. adv.

**GRUESOME FIND PROVES CRIMES OF BOLSHEVIKI**

Many Victims Buried Alive During Reign Of Terror.

Omsk, Saturday, April 5.—(By The Associated Press)—Indisputable evidence of the massacre by the bolsheviks of more than 2,000 civilians in and near the town of Osa has been obtained by Messrs. Simmonds and Emerson and Dr. Rudolph Teusler, of the American Red Cross, who have just returned from Perm, Osa, and other occupied Russian territory. Approximately 500 persons were killed at Osa and 1,500 in the surrounding districts.

Osa, which had a population of 10,000, was so denuded of males by the bolsheviks that General Casagrande, upon the occupation of the town, was obliged to telegraph to Ypkaterinburg for men to administer civic affairs.

In addition to securing verbal and documentary evidence the American Red Cross officials witnessed the exhuming of scores of victims from trenches, where they were buried some time several deep in graves revealed by the digging of dogs. The murders were without provocation, and the victims were largely of the thrifty and intelligent classes.

**Tortured Women.** The body of a woman was exhumed and identified in the presence of the Americans as the wife of a general, through jewels sewed in the lining of her clothing, of which relatives were aware. Another woman was compelled to fetch a lamp and gaze upon her murdered sons for the amusement of the slayers.

The soviet called a meeting, and prepared lists of those to die. The houses prescribed were visited by squads. The doors were smashed in, and the victims dragged to the edge of the town and forced to dig their own graves. Those resisting were shot in the streets.

A survivor testified that he had seen men thrown into a pit and buried alive. This testimony has been confirmed by bodies exhumed, the clenched hands of which were clinging to the mud at the bottom of the pit.

The only spark of humanity discovered was that in confiscating the belongings of the residents, in some instances where there was a family of small children, the family was permitted to retain one cow out of several. Occasionally a resident was allowed to keep his worst horse.

**Desecrate Churches.** The bolshevik attitude toward the churches, was uncompromising. Priests were hunted unmercifully. In the Perm district everything of value was stolen from the churches. In some places, the schools continue, but religious teaching is barred.

Careful inquiry, the American observers say, showed that there was nothing constructive in any town under bolshevik control. Money and property were requisitioned and extravagantly dissipated by individuals without accounting.

It is reliably related that theoretical bolsheviks drafted into the new Russian army who went to the front uttering threats that they would refuse to fight against their brother bolsheviks, were disenchanted on witnessing the results of the bolshevik occupation and developed into the most ardent enemies of the bolsheviks.
